Keywords: Product Development, Product Innovation, Green Tea, Descriptive Qualitative Received: August 25, 2017 Accepted: November 29, 2017 Published: December 15, 2017 1.0

Introduction: As the level of intense competition and technological advancement can not be avoided, a product will grow to a point where the product will be difficult to distinguish from one to another. To deal with these conditions, the approach that companies must take is to redesign the company's approach and strategy. In order to win in the competition, when selling its products, the company not only considers
